

Spin & Learn — Classroom Reward Spinner

Paste a word list. Ask. Spin. Earn stars.

1 Pick a list

Open the **Word List** panel. Choose ESL Basic, Math, or Blank — or paste your own words (see format below).

2 Ask the class

Show a card, call on a learner, let them answer. Press **Show Answer** whenever you like.

3 Spin for stars

Correct answer? Press **Correct** ✓ — the wheel spins, the class earns stars and builds a streak. That's the whole game.

Word-list format (one item per line)

apple | 苹果 | a round red fruit

7 + 5 | 12 | count up from 7

Fields are separated by |. **question** is required; **answer** and **hint** are optional. Blank lines are ignored.

5 classroom tips

1. **Warm-up first:** open class with 5 quick cards before the lesson.
2. **Team streaks:** split the class into teams and compare star counts.
3. **Student caller:** let a learner run the spins — engagement doubles.
4. **Recycle lists:** export your list and reuse it for Friday review.
5. **Hint first:** read the hint before revealing the answer for weaker groups.

Mini FAQ

Does it need the internet?

No — the download runs offline from a double-click.

Do students need accounts?

No accounts, no names, no data collected.

Can I share it with other teachers?

The free demo is shareable; the download is licensed to one teacher or family.

License: **Personal Classroom License (\$9)** — one teacher or one family, unlimited classroom/home use, may not redistribute or resell. **Commercial/Creator License (\$29)** adds the right to modify the game and sell your own derivative games (not the original template).
